

## KATHLEEN A. CAGNEY

University of Michigan  
Institute for Social Research  
Department of Sociology  
ISR Thompson, Room 6118  
426 Thompson Street  
Ann Arbor, MI. 48104  
(734)763-3009  
kcagney@umich.edu

### EDUCATION

- 1998                    Ph.D. Health Policy and Management (Health Services Research)  
                              Johns Hopkins University  
                              Bloomberg School of Public Health  
                              Dissertation: *Race, Socioeconomic Status and Family Structure: Determinants of Long-term Care Arrangements*
- 1990                    M.P.P. Public Policy  
                              University of Chicago  
                              Irving B. Harris School of Public Policy Studies
- 1987                    B.A. Sociology and Political Science  
                              Western Michigan University

### PROFESSIONAL POSITIONS

- Sept 21-Present*     Director, Institute for Social Research, University of Michigan  
*Sept 21-Present*     Department of Sociology, University of Michigan  
*Aug 11-Aug 21*      Department of Sociology, University of Chicago (Associate to Full)  
*Aug 99-Jul 11*      Department of Health Studies, University of Chicago (Assistant to Associate)  
*Mar 05-Aug 21*     Department of Comparative Human Development, University of Chicago, Associate  
*Jul 20-Aug 21*      *Faculty Director*, Yuen Campus, Hong Kong, University of Chicago  
*Jan 08-Aug 21*      *Director*, Population Research Center, University of Chicago  
*Jul 20-Present*     *Co-Director*, Center for Health Aging Behaviors and Longitudinal Investigations  
*Jun 08-Aug 21*      *Director*, Agency for Healthcare Research and Quality Predoctoral and Postdoctoral Training Program (Assistant Director 02-07)
- Sept 17-Jun 20*     *Deputy Dean*, Division of the Social Sciences, University of Chicago
- Dec 97-Jul 99*      **Population Research Center, NORC and the University of Chicago**  
*Postdoctoral Fellow*. National Institute on Aging fellowship in the Demography and Economics of Aging. Projects included: 1) an examination of the relationship between race and family structure and their impact upon long-term care use; 2) an assessment of education and wealth effects on cognitive status in later life; 3) a demographic evaluation of the feasibility of Medicare+Choice.
- Nov 95-Jan 97*      **Health Services Research and Development Center, Johns Hopkins University**  
*Research Associate*. Questionnaire development and data analysis for the Survey of Family Health Experiences (J. Kasper, P.I.), a national panel study of health insurance and access to care funded by the Kaiser Family Foundation.

- Jan 96-Jan 97*      **Department of Health Policy and Management, Johns Hopkins University**  
*Teaching Assistant.* 1) Course development for *Assessing Health Status and Patient Outcomes* (with A. Wu), Second Quarter, 1996/97; 2) Conducted a proposal writing workshop for doctoral students, First and Second Quarters, 1996/97; 3) Course preparation for *Data Sources and Applications in Health Policy Analysis* (with J. Kasper), a course developed for the Taiwan Master's in Public Health program, Third Quarter, 1995/96.
- Sep 94-Nov 95*      **Welch Center for Prevention, Epidemiology, and Clinical Research, Johns Hopkins University**  
*Research Associate.* Development, testing, and analysis of a health-related quality of life instrument for end-stage renal disease patients for a Patient Outcomes Research Team (PORT) study, *Choices for Healthy Outcomes in Caring for ESRD* (N. Powe, P.I.).  
*Research Associate (Jun 95-Sep 95).* Questionnaire development for the *National Senior Service Demonstration Project* (L. Fried, P.I.), a program designed to foster elder participation in schools. Included development of modules on elderly volunteerism for inclusion in the Health and Retirement Survey (HRS) and the Assets and Health Dynamics Survey (AHEAD).
- Sep 93-Aug 94*      **Health Services Research and Development Center, Johns Hopkins University**  
*Research Assistant.* Literature review on impact of environmental factors for choices about long-term care, and analyses of race differences regarding caregiver burden for *Understanding Race Differences in Long-term Care* (J. Kasper, T. LaVeist, P.I.s).
- Jun 91-Aug 93*      **Division of Cancer Control, Memorial Sloan-Kettering Cancer Center**  
*Community Program Analyst.* Administration and evaluation of cancer control initiatives through two grants; 1) Developed methods for clinical follow-up and cost effectiveness analysis and acted as administrative link between Memorial Sloan-Kettering and Harlem Hospital for a prevalence screening program in the ER of Harlem Hospital, the *Emergency Room Cancer Screening Program* (H. Freeman, P.I.); 2) Instrument development, administration and analysis for a study on cancer screening knowledge, behavior and access among ethnic groups in New York City for *Cancer Control Needs in Multi-ethnic Communities* (J. Kerner, P.I.).
- Jun 90-Jun 91*      **Center for Health Administration Studies (CHAS), University of Chicago**  
*Assistant Study Director.* Questionnaire development, data analysis, and management for the *International Collaborative Study of Oral Health Outcomes (ICS II)*, an eight-nation study conducted by CHAS and the World Health Organization (R. Andersen, P.I.).  
*Research Assistant (Oct 89-Jun 90).* Secondary data collection for ICS II. Compiled data on health, education and wealth for the nations involved in ICS II, along with editing research manuscripts and participating in planning meetings for data collection and field research.

## OTHER EXPERIENCE

- Jun 89-Sep 89*      **The Nation Magazine, New York, New York**  
 Writing and publishing internship. Research, fact-checking, copy-editing, and publishing tasks for weekly magazine of political commentary.
- Sep 87-Dec 87*      **Institute of Public Administration, Dublin, Ireland**  
 Irish studies semester and legislative internship with the Irish Parliament (Oireachtas). Program with Trinity College in Irish politics, literature, and history.

Apr 87-May 87      **Inter-University Centre for Post-Graduate Studies, Dubrovnik, Yugoslavia**  
Seminar "Future of Religion: Culture, Class, and Nation."

Sep 84-Dec 84      **Long Island University, Brooklyn, New York**  
United Nations Semester, National Collegiate Honors Council.

## FELLOWSHIPS, HONORS, AND AWARDS

2017                  Poster Session Award, Health and Mortality, Population Association of America  
2016                  Visiting Fellow, University of Texas at Austin Population Research Center  
2015                  Visiting Scholar, University of Pennsylvania  
2010                  Visiting Scholar, University of Michigan  
2009                  National Opinion Research Center (NORC) Senior Fellow  
2006                  Visiting Scholar, Johns Hopkins University  
2002                  Brookdale National Leadership in Aging Program Fellowship Finalist  
1998                  NIA Technical Assistance Workshop Presentation Award

**Johns Hopkins University**  
1996-1997          Agency for Health Care Policy and Research Dissertation Grant  
1996                  Marilyn Bergner Award  
1993-1995          University Fellowship

**University of Chicago**  
1990                  General Motors Award for Excellence in Policy Research  
1988                  Knoll Fellowship

**Western Michigan University**  
1987                  Michigan State Colleges and Universities Governing Board Award  
                                (awarded to one graduating student at each state university)  
1987                  Presidential Scholar  
1987                  Honors College graduate  
1987                  *Summa cum laude* graduate

## PROFESSIONAL ORGANIZATIONS/ACTIVITIES

### ***National***

President, Association of Population Centers (2019-2020)  
Government and Public Affairs Committee, Population Association of America (2019-2020)  
Network on Life Course Health Dynamics & Disparities Advisory Board (2020-2025)  
NIH Review Panel, Social Sciences and Population Studies A (SSPA), Population Sciences and Epidemiology (PSE)  
Integrated Review Group (2019-2023); Chair (2021-2023)  

---

Editorial Board, *Demography* (2016-present)  
NIH Review Panel, Social Epigenomics Research Focused on Minority Health and Health Disparities (March, 2018)  
Population Association of America, Board of Directors (2016-2018)  

---

American Sociological Association, Population Section Council (2012-2015)  
Associate Editor, *American Journal of Sociology* (2011-2016)  
National Health and Aging Trends Study (NHATS) Advisory Board  
UCLA Blum Center on Poverty & Health in Latin America, Robert Wood Johnson Advisory Panel on Social Cohesion  
NIH/NICHHD Review Panel, ZRG1 HOP B 90, Social Science and Population Studies (2012-2017)  
Research Infrastructure for Demographic and Behavioral Population Science (R24) 2013, NICHHD, Chair  
NIH Review Panel, NIA Roybal Centers, 2009

Population Association of America (Session Chair 2016, Member)  
American Sociological Association (Member)  
Ad-hoc reviewer: *Journal of Health and Social Behavior*; *Journal of Human Resources*; *Social Science and Medicine*;  
*American Journal of Public Health*; *American Journal of Sociology*; *Journal of General Internal Medicine*; *Medical  
Care*; *Quality of Life Research*; *Proceedings of the National Academy of Sciences*  
NIH Review Panel, HOP J 90, Non-Intervention Community-level Health Promotion, February 2004  
RAND Summer Institute in Demography, Economics and Epidemiology of Aging (1996, 1998, 2018, 2019, 2020)  
RAND Mini-medical School for Demographers and Economists (1998)  
NIA and Office of Research on Minority Health Technical Assistance Workshop on Aging Research (1998)

### **University of Chicago**

Faculty Advisory Committee for the selection of the 14<sup>th</sup> president of the University of Chicago (Sept 2020-  
present)  
Chair, Search Committee, Graham School Deanship (2018, 2019, 2020)  
Chair, *100 Year Lives in Asia (100YLA)*, Seven-part Series on Changing Demographics, Yuen Campus, Hong Kong,  
April-July, 2020  
Faculty Advisory Group, National Academies of Sciences, Engineering, and Medicine Action Collaborative on Sexual  
Harassment in Higher Education (2020)  
Chair, Development Committee, 2019 Climate Survey (sexual misconduct)  
Committee of the Council (2019-2020)  
Council of the Senate (2018-present; 2008-2011)  
Mansueto Institute Advisory Board (2019-present)  
Committee on Geographical Sciences (2018-present)  
Urban Architecture and Design Committee (2018-present)  
Institute for Population and Precision Health Steering Committee (2018-present)  
MA Program in Computational Social Science Executive Committee (2017-present)  
Co-Organizer, *Revisiting a Trailblazing Text: Robert Park and Earnest Burgess's The City Panel Discussion*, April 04,  
2019  
Co-Organizer, *Citizenship, Migration, and Urban Space Conference*, November 1-2, 2018  
Chair, Search Committee, Mansueto Institute for Urban Innovation Directorship (2016-2017)  
Chair, University of Chicago Graham School of Continuing Liberal and Professional Studies Board (2014-2017)  
Women's Leadership Council (2012-2015)  
Board of Campus and Student Life (2009-2012)  
Committee to Assess the University's Report on the Status of Academic Women  
Urban Committee  
Committee on Demographic Training  
Health Professions Advisory Committee  
Urban CCD  
*Data Science for Social Good*, Mentor  
Co-Chair, *Convening on Urban Data Science*, University of Chicago, April 27-29, 2016  
Co-Chair, *Local Area Processes: Theories, Methods and Models Conference*, University of Chicago, May 18, 2012  
Chair, *Causal Inference in Neighborhood-based Research Conference*, University of Chicago, December 1, 2006  
Co-Director, Health Disparities and Neighborhoods Core for the Chicago Center of Excellence in Health Promotion  
Economics (with D. Meltzer) (2004-2007)  
NIH Review Panel, RFA-OB\_03\_001 Special Emphasis Panel, *Pathways Linking Education to Health*, July 2003

### **University of Michigan**

Advisory Board, Mcity  
Advisory Board, Poverty Solutions  
Advisory, Board, Michigan Center on the Demography of Aging (MiCDA)  
Member, Campaign Planning Group  
Member, Campaign Theme Group, *Living Environments for Tomorrow*

## TEACHING RESPONSIBILITIES

### **University of Chicago**

Sociology 60020. *Proseminar*. Fall/Winter, 2013-14; Fall, 2018.

Sociology 30002. *Principles of Sociological Research*. Winter, 2017.

Sociology 40188. *Advanced Methods in Survey Research*. Spring, 2014, 2015, 2016.

Sociology 20215. *Urban Health*. Spring, 2012, 2013, 2014, 2015, 2016.

Sociology 30002. *Sociology Inquiry II*. Winter, 2013.

Health Studies 351. *Introduction to Health Services Research* (with W. Manning). Spring, 2004.

Health Studies 352 (Cross-listed with Sociology, the Harris School of Public Policy). *Demography of Aging and the Life Course*. Autumn, 2000, 2001, 2002, 2003, 2005, 2006, 2007. Spring, 2005, Winter, 2009.

Health Studies 379. *Health Outcomes and the Quality of Medical Care* (with M. Chin). Winter, 2000, 2001, 2003.

Health Studies 380 (Cross-listed with the Harris School of Public Policy). *Health Status Assessment: Measurement and Inference*. (with C. O'Muircheartaigh in 2002). Winter, 2002, 2007, 2008, 2009, 2011. Spring, 2006, 2010.

## **GRANT SUPPORT**

### **Awarded**

#### *Specialized Training: Demography and Economics of Aging*

Principal Investigator

Agency: National Institute on Aging

Type: T32 AG000243-26      Period: 04/30/21-04/29/26

The University of Chicago continues the UC Specialized Training Program in the Demography and Economics of Aging. Housed in the interdisciplinary Center for Health and the Social Sciences (CHeSS), the NIA T32 Program draws upon the substantial and complementary resources, faculty, and expertise from across social science disciplines and related professional schools on UC's campus.

#### *The Great Smoky Mountains Study of Rural Aging*

Multiple Principal Investigator (with William Copeland, V. Joseph Hotz, and Kenneth Dodge)

Agency: National Institute on Aging

Type: R01 AG072459-01      Period: 04/01/2021-03/31/2026

This data collection project will augment the longitudinal Great Smoky Mountains Study to create a national data resource, the Great Smoky Mountains Study of Rural Aging (GSMS-RA), for the study of early determinants of the aging experience in rural context. One component will gather data on everyday life via GPS monitoring and an Ecological Momentary Assessment (EMA) design coupled with actigraphy and rural context profiles.

#### *RAPID: Daily Mobility Patterns and COVID-19 Risk among Urban Older Adults*

Principal Investigator

Agency: National Science Foundation

Period: 05/15/20-05/14/21

Type: Division of Social and Economic Sciences

This project investigates the ability of older Chicagoans to comply with public health guidelines and how variation may contribute to differences in exposure risk and health consequences. This study builds on earlier research related to activity patterns of a diverse sample of older adults to measure risk of spatial exposures prior to the pandemic.

#### *Center for Healthy Aging Behaviors and Longitudinal Investigations (CHABLIS)*

Co-Principal Investigator (with David Meltzer)

Agency: National Institute on Aging

Type: P30AG20002-01                      Period: 07/15/20-06/30/25

The University of Chicago Center for Healthy Aging Behaviors and Longitudinal InvestigationS (CHABLIS) will promote a sustained research and infrastructure development program that leverages longitudinal data to examine how demographic and economic factors facilitate or suppress individual healthy aging behaviors and, in turn, influence outcomes among older adults over the life course.

*Activity Space, Social Interaction and Health Trajectories in Later Life*

Principal Investigator

Agency: National Institute on Aging

Type: R01 DA032346-01                      Period: 07/01/16-06/30/21

We will examine older adults' health trajectories in real time, as changes unfold, in the context of their routine activities. We not only concentrate on reports of network, household, and neighborhood factors but also on the unique role of GPS-tracked activity space coupled with Ecological Momentary Assessment (EMA).

*Understanding the Impact of Social and Physical Environment Factors on Crime Using Urban Sensing and Machine-Learning* (Marc Berman, P.I.)

Co-Principal Investigator

Agency: National Science Foundation

Period: 10/01/20-09/30/23

Type: CNS Division of Computer and Network Systems

This project proposes new methods including causal inference modeling and machine learning, combined with new data sources such as imagery and sound from the NSF-funded Array of Things project, to explore three time-varying neighborhood factors on crime.

*Array of Things* (Charlie Catlett, Co-P.I.)

Co-Principal Investigator

Agency: National Science Foundation

Period: 10/10/15-02/15/19 (NCE)

Type: Major Research Instrumentation, Information Technology Research

In partnership with the City of Chicago, we will develop and deploy a persistent, flexible urban scale instrument, called the Array of Things (AoT), supporting embedded sensing and cyberinfrastructure research, development, and evaluation. Building on Chicago's initiatives in open data, the partnership aims to create an "instrumented city" with a platform that is driven by science needs and can be continually upgraded.

*Black Wall Street Journey*

Co-Principal Investigator

Agency: Neubauer Collegium for Culture and Society

Period: 07/01/20-06/30/21

In collaboration with the artist Rick Lowe, this project will combine data from a social survey, AoT sensors and city archives to examine economic development and change in Chicago's Washington Park neighborhood.

*The University of Chicago and Northwestern University Health Services Research Training Program*

Principal Investigator

Agency: Agency for Healthcare Research and Quality

Type: T32 HS00084                              Period: 07/01/18-06/30/23

This program for predoctoral and postdoctoral fellows will enable them to pursue academic careers, engage in high quality research, and provide leadership in the multidisciplinary field of health services research.

*Dental Health in Community Context: Health Status and Access to Care on Chicago's South Side*

Principal Investigator

Agency: George E. Richmond Foundation

Period: 12/02/14-11/30/16

This project focuses on oral health and its association with general health, and access to health care services on Chicago's South Side. It also explores the role of oral health in labor market participation and economic well-being.

*NSHAP W4: Contextual Pathways of Cognitive Decline* (Linda Waite, P.I.)

Co-Investigator

Agency: National Institute on Aging

Type: R01 AG043538-06      Period: 07/03/18-07/02/23

The National Social Life, Health and Aging Project (NSHAP) is a longitudinal study of older adults designed to examine the mechanisms by which social factors are affected by health. Wave 4 will allow for the study of diverse aging trajectories of overall health, comprehensively defined as incorporating dimensions of cognition, mental health, and sensory and motor function along with organ diseases. This redefinition of health in older adults will help to reshape health care and policy for an aging, heterogeneous U.S. population.

*Cohort Differences in Social Life and Health: Refreshing the NSHAP Sample* (Linda Waite, P.I.)

Co-Investigator

Agency: National Institute on Aging

Type: R01 AG048511      Period: 09/05/14-05/31/19

The National Social Life, Health and Aging Project (NSHAP) is a longitudinal study of older adults designed to examine mechanisms by which social factors (e.g., intimate relationships, social networks) affect and are affected by health. We seek funding to re-interview all surviving referent respondents and W2 spouses/partners in 2015–16 (W3). W3 will allow researchers to trace pathways of health and mortality for individuals and intimate partnerships within social context.

*National Social Life Health and Aging Project: Wave 3* (Linda Waite, P.I.)

Co-Investigator

Agency: National Institute on Aging

Type: R01 AG042401      Period: 06/01/13-05/31/18      The National Social Life, Health and

Aging Project (NSHAP) is a longitudinal study of older adults designed to examine mechanisms by which social factors (e.g., intimate relationships, social networks) affect and are affected by health. We seek to re-interview all surviving referent respondents and Wave 2 spouses/partners in 2015–2016 to trace pathways of health and mortality for individuals and intimate partnerships within social context.

*Rapid Response Survey on Smart Meter Attitudes* (Robert Rosner, P.I.)

Agency: Illinois Science and Energy Innovation Foundation

Period: 01/03/14-01/03/16 (NCE)

Our team at the University of Chicago, in partnership with the National Opinion Research Center (NORC), proposes a two-step process aimed at eliciting critical information regarding social attitudes towards smart grids and smart metering, focusing especially on the South and Far Southeast Sides of the City of Chicago, in neighborhoods that the American Community Survey shows to be relatively low-income and relatively higher in older populations and where smart meter deployment is slated.

*An Urban Sciences Research Coordination Network for Data-Driven Urban Design and, Analysis* (C. Catlett Co-P.I.)

Co-Principal Investigator

Agency: National Science Foundation

Type: 1244749      Period: 10/01/12-09/30/15

Researchers recognize the potential for new insights and more effective policy and planning if research teams had the ability to explore these data as an integrated corpus. The project will create a research coordination network that brings these communities together to develop an integrated research agenda for an interdisciplinary, data-driven approach to urban research, analysis, and planning, exploring and prototyping methods, processes, tools, and infrastructure necessary to support such science.

*Neighborhood Characteristics and Cognitive Decline in Older U.S. Adults* (R. Shih, P.I.)

Co-Investigator

Agency: National Institute on Aging

Type: R01 AG043960-01      Period: 09/01/12-08/31/15 (NCE)

This project will develop a national database of objectively measured neighborhood characteristics, linking these data with data on cognitive function assessed in a nationally representative sample of older adults in the Health and Retirement Study (HRS) over as many as 24 years (1992-2016), and examine the cross-sectional and longitudinal associations between neighborhood characteristics and cognitive function over time.

*Social and Economic Analysis of Demographic Change*

Principal Investigator

Agency: National Institute of Child Health and Human Development

Type: 2R24HD051152-06      Period: 07/08/10 – 06/30/15

The Population Research Center (PRC) aims to foster an engaged, collaborative, multidisciplinary intellectual environment for research in demography and population research; to provide efficient and facilitative research support services; to encourage the development of new research projects and research foci in population research; and to facilitate collaborative research and teaching among scientists working in population studies.

*Community Resilience in the Wake of Superstorm Sandy*

Co-Principal Investigator

Agency: Rockefeller Foundation

Period: 04/01/13-11/30/14

The AP-NORC Center for Public Affairs Research initiated a two-phase research project to examine the impact of Superstorm Sandy. In addition to providing an in-depth examination of how individuals and the region are coping, the study also provides an opportunity to test measures of collective efficacy, recovery, and resilience. The study combines a set of social surveys, along with an in-depth assessment of 12 neighborhoods and a systematic social observation.

*National Social Life, Health, and Aging Project (L. Waite, P.I.)*

Co-Investigator

Agency: National Institute on Aging

Type: R01 AG030481      Period: 06/01/08 – 05/31/13

The primary objective of the National Social Life, Health and Aging Project (NSHAP) is to establish an innovative, high-quality dataset for use by researchers studying the relationships between social processes and health among older adults.

*SES and Age-Related Disability in a Biracial Community (C. Mendes de Leon, P.I.)*

Co-Investigator

Agency: National Institute on Aging

Type: R01      Period: 08/01/05-07/31/10

The goal of this project is to examine the biological and environmental mechanisms by which relative socioeconomic deprivation leads to disability in older people.

*Neighborhood Context and the Health of Older Adults*

Principal Investigator

Agency: National Institute on Aging

Type: R01 AG022488-01      Period: 09/30/03 - 08/31/08

This research examines the extent to which neighborhood social context influences the health and well-being of older adults, and, in turn, how the presence of older adults in the community affects neighborhood social cohesion and stability.

*Social Context and Mexican-Origin Youth (R. Frank, P.I.)*

Co-Investigator

Agency: National Institute of Child Health and Human Development

Type: R03      Period: 04/01/06-03/31/08

This project will examine patterns of educational attainment, health outcomes, and risk-taking behaviors among Mexican-Origin youth and the degree to which these vary by generational status and neighborhood social context.

*Re-Engineering Translational Research at the University of Chicago (J. Solway, P.I.)*

Co-Investigator

Agency: NIH/NCCAM

Type: U54 RR023560                      Period: 09/17/07-09/29/12

The goal of this grant is to create an institutionally-integrated Clinical and Translational Program designed to leverage our substantial multi-disciplinary expertise (high throughput technologies, novel phenotype- and grid accessible- bioinformatics, health disparities research, clinical trials, medical ethics) in order to rapidly translate biomedical discovery into personalized therapies for our diverse adult and pediatric patient populations.

*Chicago Center of Excellence in Health Promotion Economics (D. Meltzer, P.I.)*

Core Co-Director, *Neighborhood and Health Disparities Core*

Agency: Centers for Disease Control and Prevention

Type: P30 CD000147                      Period: 10/01/04 – 09/30/07

The goal of the Center's work is to develop and apply economic methods to advance knowledge about the role of economic factors in health behaviors, health promotion initiatives, and health disparities across racial, ethnic, socioeconomic, and geographic dimensions.

*Evaluation of TEACH Research (D. Meltzer, P.I.)*

Co-Investigator

Agency: NIH/NIGMS

Type: R01GM75292                      Period: 01/1/05-12/31/08

The goal of this project is to develop a precollege clinical research enrichment program in order to increase the entry and success of underrepresented minorities in clinical research careers.

*Social Support Networks in Urban Neighborhoods*

Agency: University of Chicago Center for Human Potential and Public Policy Pilot Grant

Period: 07/1/06 - 9/30/06

The aim of this research is to examine the density and quality of social support networks for adolescents and their families and to incorporate information about the neighborhood context in which they live.

*Social Life, Intimacy, and Health in Long-term Care Facilities: Network and Contextual Effects*

Agency: University of Chicago Center on Aging Pilot Grant (National Institute on Aging)

Type: P30 AG-12857-09                      Period: 10/1/02 - 9/30/03

This project examines social life and intimacy within institutional long-term care, related both to the initiation and maintenance of social networks and to the

*Neighborhood Social Organization and Health: New Directions for Research on the Link between Individual Health Status and Community Context of the Aged*

Agency: University of Chicago Center on Aging Pilot Grant (National Institute on Aging)

Type: P30 AG-12857-09                      Period: 10/1/02 - 9/30/03

This project examines the role of neighborhood social and economic structure for the health of older residents in the city of Chicago.

*Using the Experience Sampling Method (ESM) to Measure Hospital and Nursing Home Quality*

Agency: University of Chicago Center on Aging Pilot Grant (National Institute on Aging)

Type: P30 AG-12857-09                      Period: 10/1/02 - 9/30/03

This research will pilot the ESM methodology for patient satisfaction measurement, following respondents from the hospital to a long-term care facility.

*Income Inequality, Social Capital and Individual Health Outcomes: A Multi-level Study Using Medicare Claims Data in Metropolitan Chicago*

Agency: University of Chicago Center on Aging Pilot Grant (National Institute on Aging)

Type: P30 AG-12857-06 Period: 7/1/01 - 6/30/02

This project examines the role of neighborhood economic structure and social capital for older residents, particularly the extent to which they influence disease trajectories.

*Education, Wealth, and Cognitive Decline in Later Life*

Principal Investigator

Agency: National Institute on Aging

Type: R03 AG18491-01 Period: 07/01/00-06/30/01

This research examines the effects of education and other sociodemographic factors on change in cognitive status, attempting to clarify the extent to which that association is direct and the extent to which it is due to economic confounding.

*Co-occurring HIV Risk Behaviors in Community Context* (subcontract from Ohio State University (Christopher R. Browning, P.I.)

Principal Investigator

Agency: National Institute of Mental Health

Type: R03 MH61161-01A1 Period: 11/01/01-10/31/02

This research examines the community context of health risk behaviors related to HIV transmission.

*Instrument Development for Evaluation of Nursing Home Care*

Agency: University of Chicago Center on Aging Pilot Grant (National Institute on Aging)

Type: P30 AG-12857-06 Period: 05/12/00-05/12/01

The aim of this pilot project is to explore the feasibility of, and lay the groundwork for, a data collection effort devoted to quality assessment in nursing home care.

*Improving the Quality of Nursing Home Care*

Principal Investigator

Agency: Retirement Research Foundation

Period: 8/2/99-4/30/00

The goal of this project is to develop an outcome ranking system that will allow researchers and policy makers to identify nursing homes that are providing high quality versus low quality care.

*Nursing Home Outcomes as Quality Indicators*

Principal Investigator

Agency: Agency for Health Care Policy and Research

Type: R03 HS09827 Period: 8/2/99-4/30/00

This project expands on the Retirement Research Foundation by increasing the number of outcomes studied and increasing the number of study years.

*The Implications of Beneficiary Characteristics for Implementing Medicare+Choice*

Co-Investigator

Agency: Robert Wood Johnson Foundation

Period: 7/01/99-6/30/00

This project investigates the relationship between Medicare beneficiaries' physical, cognitive, and social characteristics as well as the decision-making process that occurs through the annual open enrollment season.

*Determinants of First Nursing Home Entry* (Dissertation Grant)

Principal Investigator

Agency: Agency for Health Care Policy and Research

Type: R03 HS09334-01 Period: 09/30/96-09/29/97

This study examines racial differences in first nursing home entry and the role of socioeconomic status and family structure in this difference.

## **Under Review**

### *Connecting Olfactory Decline in Aging with Clinical Sequelae: Neurosensory Outcomes and Social Context*

Co-Investigator

Agency: National Institute on Aging

Type: R01AG055120-01

This project is designed to define the health trajectories that lead from olfactory loss to cognitive decline, Alzheimer's Disease, and/or death. We will exploit and extend the wealth of information available in NSHAP by linking Medicare claims in order to identify, categorize, and quantify the intervening clinical events, the order in which they occur, the associated healthcare utilization and costs, and the effects of social context.

### *Mid-Life Health Inequalities in the Rural South: Risk and Resilience*

Multiple Principal Investigator (with William Copeland and V. Joseph Hotz)

Agency: National Institute on Aging

Type: R01AG080485-01      Period: 012/01/2022-11/30/2027

This project will look to identify determinants of health in distinct, at-risk rural areas that are ground zero for the mid-life mortality crisis. We will identify where specific health inequalities occur, who is affected, and when they are at risk and the interplay between these factors. Results will provide direct, actionable and fine-tuned knowledge for prevention science and public policy efforts to curb the troubling new premature mortality trends.
